"Further Specification") head: Activity → target: further spec.

The employee initiates an idea for a project .

He needs to record the basic idea of a document and express its value for ...

He then needs to submit a request for approval to the manager of his team

The manager assesses the request for approval .

If the project is approved , he will initiate a project plan .

This involves simultaneously laying out a timeline , setting up a budget and starting the ...

When this is done , the project is started .

If otherwise he rejects the plan , he will communicate the rejection to his employee
